PROFILE

I am a computer science student who will be graduating In June 2021, **I am seeking a job in web development.** I am an experienced and creative developer, with particular expertise in React. I have always had a burning passion for technology, and am adaptable and always willing to learn.

SKILLS

React / React Native	Node JS
JavaScript	Git
Java	C++
HTML/CSS	Continuous Integration
Firebase	Data visualisation
Python	AWS

ENDORSEMENTS

Euan Morgan has been the most reliable and creative web developer I have had in over 10 years of running an online business. In the past couple of years of working together, he has brought me excellent solutions to the different features I wanted added to my site. He was also able to bring those solutions to life on the live site in a timely manner, well under the original estimated time of completion. He has bailed me out of so many technical issues on the site caused by other developers that I can't even count. It is great to finally have a web developer that I can trust to get the task accomplished quickly and with excellent results.

Carl Brown, GuitarLessons365

PROJECTS

Music Makes You Run Faster

React & Node JS

Music makes you run faster is a web app which analyses your music streaming and fitness tracker data to see whether the exercise has any impact on your performance.

GL365 Academy Trainer

React Native

GL365 Academy trainer is a mobile app I made for GuitarLessons365. It challenged me as a developer to devise creative solutions including ear training and rhythm exercises and an interactive guitar fretboard UI

PAL - Peace and Love

React Native, Java, Python

PAL is a mobile application designed to help people stay safe whilst walking home at night. It uses crime data & shortest path algorithms to calculate the safest route home, and boasts an arsenal of security features.

EDUCATION

BACHELOR OF SCIENCE

(2018 - 2021)

Cardiff University

Computer Science

I expect to graduate in June 2021

A Level

(2016- 2018)

Coleg Gwent

Law: A, Computer Science: B, ICT: C

GCSE

(2011 - 2016)

Tredegear Comprehensive School

10 GCSEs grade A* - C

WORK EXPERIENCE

Web/Mobile

Developer

(2019 - present)

GuitarLessons365

GuitarLessons365 is one of the internet's largest guitar tuition companies.

- I developed the GuitarLessons365 Web App in 2019
- I developed the GL365 Academy Trainer mobile app in 2020
- I help maintain the site, fixing errors and adding new features.
